

## **A Partnership That Must Not Be**

With a major election approaching, more and more news and talk radio outlets, podcasters and other internet formats have increased their discussions of election integrity issues.

### **High on the list of subtopics is the infamous Election Integrity Partnership.**

While this partnership is logically referred to as “EIP,” the **unfortunate similarity** of their acronym with that of EIPCa **continues to create confusion**.

**Please know and inform others that Election Integrity Project® California is NOT the EIP being referenced.**

**Here are the major differences:**

### **FOUNDING**

#### **Partnership:**

- founded in advance of the 2020 election cycle as a coalition of far-Left universities, news and social media outlets and factions within the U.S. government
- reactivated for the 2022 and now 2024 election cycles

#### **Project:**

- founded in December of 2012 as Election Integrity Project, a non-partisan coalition of California citizen volunteers
- has continued to work unceasingly for 13 years
- became Election Integrity Project® California, a 501(c)(3) non-profit, non-partisan, charitable organization of California citizen volunteers in 2017

## PURPOSE

### Partnership:

- to manipulate, spin, skew, fabricate and suppress information available to the public in order to affect the voting choices of U.S. citizens (and anyone else voting)
- Examples: the Steele Dossier/Russian interference story, which has long since been completely discredited but is still pushed by the press and the Progressive spokespersons;
- the suppression of the Hunter Biden laptop story, verified by the FBI and DOJ as legitimate and yet suppressed by all mainstream media and social media platforms.

### Project:

- to defend, through education, research, and advocacy the civil rights of U.S. citizens to fully participate in the election process under Federal and state law
- to ensure every election is fair, honest, transparent and constitutionally and legally valid
- to educate voters about how to keep their own votes safe and make them count; to inform voters about election laws that affect them and their vote
- to fully train non-partisan observers to document every step of the election process and to legally intervene to correct procedures and processes that may be threatening the integrity of any election outcomes

## FUNDING

### Partnership:

- participating entities and deep-pocket Leftist organizations and individuals (i.e., George Soros and his ilk)

### Project:

- individual citizens who believe in and support the corporation's goals—no government or deep-pocket monies
- all volunteer—no participant receives any pay or reimbursement

## The “Partnership”

1. **exists to confuse**, misinform and manipulate.

2. **is insidious**, abusive and destructive to the American Republic.
3. **aims to destroy** the liberties and freedoms Americans enjoy through deceit and ultimate transformation of our society into a Marxist dystopia.
4. **must be exposed** and dismantled.
5. **The Partnership must NOT be supported.**

## The “Project”

1. **exists to restore** and defend the rights of ALL U.S. citizens and to strengthen the Republic.
2. **believes in and works to defend the Constitution** and ensure the continued existence of a nation of the people for the people and by the people-- one nation under God, indivisible, with liberty and justice for all.
3. **The Project must be supported.**
