

## **Vote Safe and a Little More in 2024**

### **2024 Introduction to the EIPCa Citizen Observer Guidelines**

### **November 2024 – Presidential Election**

Since 2011, Election Integrity Project® *California* has researched and documented every aspect of California’s election process and identified how California laws and regulations have transformed a single Election Day into a 60-day election season fraught with easy-to-manipulate procedures.

For 14 years EIPCa-trained Observers and Citizen Observers have submitted tens of thousands of signed affidavits from citizens in 43 out of 58 counties. These documents paint a clear picture of California’s transformation of an election management process that once resembled a vault, nothing in, nothing out except the vote of each eligible citizen, to a system best described as porous.

#### **This documentation has so far allowed EIPCa to instigate**

- 1) a civil right hearing in 2014
- 2) an NVRA section 8 lawsuit in 2017
- 3) four Briefs filed with the DHS and the DOJ in 2017
- 4) an Amicus Brief on behalf of Arizona in *Brnovich v DNC* in 2020
- 5) a lawsuit challenging violation of citizen Observer Rights in 2020
- 6) a federal lawsuit challenging the constitutionality of CA election laws, etc. in 2021

#### **The importance of citizen oversight cannot be understated.**

EIPCa’s continued legal efforts limit our ability to recruit and train new observers for the 2024 election season.

#### **Nevertheless, there is a vital role that EVERY CITIZEN can play!**

#### **Your participation will make the difference!**

EIPCa has created a Citizen Observation Education program to provide all interested citizens HOW to observe, WHAT to look for, and HOW to respond to make a difference.

**There are no classes to attend or webinars to log into.**

**Instead, EIPCa has created easy-to-digest, bite-sized “articles”** that can be read and digested as time allows. Together they provide the information needed to participate in meaningful observation. Instructions on how to access those articles are at the end of this notice.

**EIPCa is asking each concerned citizen not only to “Vote Safe in 2024”** but also to do “a little more” by taking all of the information provided in our “Vote Safe” articles and stepping out to be Citizen Observers.

**EIPCa will provide Citizen Observers with a HOTLINE for support** and, of course, the [Citizen Incident Statement and Reporting Instructions](#).

**The first step in preparing to observe** the election process at the polling location or ballot processing center is to download and become familiar with the [Citizen Observer Guidelines](#).

This document will ensure that all Observers know the “rules” and remain within their lawful rights and restrictions.

**These indispensable tools for citizen observation can now be found on the EIPCa website in the website in the [Citizen Observation Education Program box](#).**

The guidelines, along with the information in the “Vote Safe” articles, will prepare you to step out with patriotism, knowledge and confidence to be a vital part of the People’s election process.

Review our [Meaningful Citizen Observation Begins with Meaningful Preparation](#) to article for more insight and motivation.

**Welcome Aboard.**
