**★ USA - Why It Matters**

To restore the validity of our elections by the November 2024 election, we must act now with a compelling, crystal-clear strategy across the nation. The courts, bureaucrats, and politicians increasingly view themselves as election referees, overseeing close contests and ultimately making the final call. **This is a gross violation of their duty and reduces suffrage to the arbitrary will of bureaucrats.**

USA's focus on the validity of elections implements the use of federal law reflected in NVRA, HAVA, and the Federal Prosecution of Election Offenses to hold election officials accountable to follow federal law that clearly states **ONLY valid elections are to be certified.**

**Validity begins with maintaining accurate voter rolls  
in order to prevent illegitimate registrations  
from generating illegitimate votes.**

EIPCa began **working shoulder to shoulder with USA in Sep. 2023** to implement the USA strategy in California. We **expanded our data research team in November** in order to complete the California Scorecard in time to **present the Scorecard and Resolution** to election officials during the Primary Season.

**California citizens must work together to**

- 1) observe and document the Primary as citizen observers and**
- 2) present the scorecard and Resolutions to election officials.**

**NOTE: EIPCA is now starting our 14<sup>th</sup> year** of documenting and taking action to challenge the unconstitutional laws, regulations, policies & procedures used to manage California elections and process the millions of vote-by-mail ballots. EIPCa's 2020 Constitutional lawsuit is again appealing an attempt to dismiss our case.

**The 9<sup>th</sup> Circuit Court of Appeals will hear oral arguments on Feb. 5, 2024.**  
**Details will be presented at each Stars & Stripes meeting.**
